

We have provided our new Carro mat cart with even more additional functions and have been able to significantly increase the processing quality. Is extremely flexible and adapts perfectly to your individual requirements at an unbeatable price.

Now hight adjustable

The mat cart can now be adjusted in height between 178 - 207 cm over six levels and thus adapted to the mat size. It can be securely locked in place using two locking screws with a comfortable grip.

Rolls with brakes

The mat cart has 4 high-quality metal rolls with a rubber layer that protects the floor. 2 rolls provide brakes so the mat cart can be parked safely.

Adjustable eyelet spacing

The distance between the eyelets can be continuously adjusted on both sides up to a maximum of 59 cm.

The mat cart is therefore suitable for all commercially available mats with eyelets.

Grip handle

The mat cart can be moved practically and conveniently using the two side handles.
