

# CHAINLUBE ALLROUND

## SPRAY

Chain lubricant for every conditions

### Description

MOTOREX CHAINLUBE ALLROUND is a special chain lubricant with a very long service life, enabling it to meet the demands of daily use. It protects the chain and derailleur from corrosion and oxidation and minimises wear. Chain noise and friction are reduced on a lasting basis. Ideal for bicycles, e-bikes and pedelecs used every day.

### Advantages

- ideal for city bikes, e-bikes and pedelecs
- high mileage and service life
- very good material compatibility
- brilliant adhesion
- effective corrosion and oxidation protection
- wear-reducing effect

### Field of application

MOTOREX CHAINLUBE ALLROUND is recommended for lubricating the chains and derailleurs of all bicycles, e-bikes and pedelecs.

### Application

Apply MOTOREX CHAINLUBE ALLROUND to the dry chain and derailleur. Move the parts as you do this so that the lubricant is applied evenly. The dirty chain can easily be cleaned with MOTOREX BIKE CHAIN DEGREASER before use. Using MOTOREX CHAINLUBE ALLROUND regularly increases the service life of your chain.

### Notes

Warning: Avoid contact with the brakes so that the brake action is not impaired. Note: Also available as a liquid!

### Technical data

Properties	Unit	Test according to	Values
Density at 20 °C	g/cm <sup>3</sup>	ASTM D4052	0.832
