

BIKE QUICK CLEAN

Cleaner with beading effect

Description

QUICK CLEAN is a special cleaner ideally suited to getting your bike back into a clean and well-cared-for condition, even if you do not have the opportunity to sluice it down with water using a hose – as is often the case if you live in a built-up area. The cleaner is also perfect for e-bikes and pedelecs, as they do not often get very dirty and laborious cleaning is not always necessary. Above all, it is advisable not to use a lot of water all the time due to their many electronic parts.

Product features

- beading effect
- carbon-compatible
- 360-degree spraying system
- cleans plastics, varnished surfaces and metals without the use of water
- removes insects, dirt, dust etc.
- particularly stubborn contamination is easily removed
- quick and easy cleaning

Application

Set the nozzle to a fine spray, spray the dirty areas and then rub off. If brake discs are present, ensure that these are degreased before riding the bike for the first time.

Technical Data

Properties	Test according to	Unit	Values
Colour			colourless
Density at 20 °C		g/cm ³	0.989
Flashpoint Miniflash CCA-FLPH	ASTM D6450	°C	42
