

This specification describes articles of the material group

## Wood

**Material description:**

Wooden boat: pine wood

As first step the tree trunks go into boiling water. Then the trunks are getting decorticated. The next step is to cut the trunk in thin layers, which will be punched and steamed. After this the wood will be pressed in the needed shape, glued and splints will be removed. In the end there will be glued. There is no additional surface treatment or coating of the wood.

	<p><b>Boat</b> Article numbers 10057, 10058, 10059, 10060, 10061</p>
---	--

**Production location:** China

**Characteristics:** The products are suitable for single usage.  
The product must be stored dry.

**Bio-degradability:** The products are completely bio-degradable:

**Special regulations:** These articles are suitable for direct contact with food according to test report SQTS 2013L35617 and comply with EU-regulation 2006/2023 regarding Good Manufacturing Practice.

**Customs duty number:** 4419.0000
