

# Tork Aftøringspapir Basic, M2

Farve: Hvid Type: Centerfeed Rulle

## Fordel

- Godkendt til kontakt med fødevarer
- Tork Easy Handling™, emballage som er let at løfte, åbne og folde sammen, når du skal skaffe dig af med den.

## Produktspecifikation

Artikel	System	Rullelængde	Rullediameter	Lag	Farve
120145	M2 - Centerfeed-system, stort	300 m	19 cm	1	Hvid

## Beskrivelse

Et 1-lags papir til basale aftøringsopgaver.

# Tork Aftørringspapir Basic, M2

Farve: Hvid Type: Centerfeed Rulle

## Forsendelsesdata

### Forbrugerenhed

<b>EAN</b>	7322540048957
<b>Stk.</b>	1
<b>Højde</b>	215 mm
<b>Bredde</b>	180 mm
<b>Længde</b>	180 mm
<b>Volumen</b>	7.0 dm <sup>3</sup>
<b>Nettovægt</b>	1580 g
<b>Bruttovægt</b>	1581 g

## Miljø

### Content

Virgin Pulp

Recycled fibres

Chemicals

### Material

Virgin fibres and recovered paper

In the tissue process both virgin fibres and recovered paper are being used. In the process it is a matter of finding an efficient solution where both virgin fibres and recovered paper play a role. Different fibres demand different processes and this determines the end product properties, and makes the fibre type (recovered or virgin) less important.

The environmental benefits and economic feasibility of recovered paper as a raw material source depend on its availability, transport distance and the quality of the collected material.

Bleaching of fibres

Bleaching is a cleaning process of the fibres and the aim is to achieve a bright pulp, but also to get a certain purity of the fibre in order to achieve the demands for hygiene products and in some cases to meet the requirements for food safety.

There are different methods used today for bleaching ECF (elementary chlorine free) where chlorine dioxide is used, and TCF (totally chlorine free) where ozone, oxygen and hydrogen peroxide is used.

Chemicals

The chemicals used in the process as well as the functional chemicals are assessed from an environmental, occupational health and safety and product safety point of view .

The used functional chemicals are:

Wet strength agent

Dry strength agent

If coloured = Dye

Fixing agents

If white Fluorescent whitening agent

If needed Glue

Softeners

# Tork Aftøringspapir Basic, M2

Farve: Hvid Type: Centerfeed Rulle

---

The process chemicals are:

Antipitch

Protection agent

Yankee coating

Defoamer

Dispersing agents and surfactants

pH and charge control

Retention aids

Broke treatment chemicals

Drainage aid

Product safety

The product fulfils the legislative requirements for food safety =Isega.

Packaging

Fulfilment of Packaging and Packaging Waste Directive (94/62/EC): Yes

Environmental label = Ecolabel.

This product is approved for Nordic ecolabel, licence 305 003 and EU ecolabel.

Date of issue 2010-08-17

Revision date

SCA Hygiene Products AB, Bäckstensgatan, 405 03 Göteborg

## Production

This product is produced in Lilla Edet mill, Sweden, certified according to ISO 9001, ISO 14001.

## Destruction

This product is mainly used for personal hygiene and can be collected together with household waste. If used for industrial processes check local regulations for destruction.
