

## Viper 751

# VIPER

## info

### Stay clean.

The original clip-on mudguard set for trekking bikes. Thanks to its form and position close to the tire it provides perfect protection.

- fitting for 24''-28''
- high torsional rigidity by material and construction
- for bikes with and without full suspension
- universal fittings:
  - normal suspension forks
  - Marzocchi double drilling
- integrated special protection imprint

[alternative: →770, →761 for trekking, →742 for race]
