MAGICSHINE®

SEEMEE 180
Smart & Safe Life

Feature

◆ Transparent optical fiber provides maximum 180 lumen light outputs.

◆ 260° lighting visibility gives you all around protection.

◆ 8 modes: smart mode,3 constant modes, and 4 flash modes.

◆ Built-in motion sensor, automatically turns on when braking.

◆ Ambient light sensor, automatically adjusts mode according to environment changing.

◆ Low power mode (automatic) to extend the running time efficiently.

◆ Multiple mounting methods that fit in saddle and different seat posts.

◆ Memory function, battery indicates and USB rechargeable.

◆ Feathery 1.26 oz, and exquisite case design with IPX6 waterproof rate.

Magicshine

Efficient Light Output

Compares to red cover, transparent optical fiber emits stronger and uniform light outputs while consuming less energy.

High Visibility

SEEMEE 180 allows riders to be seen from up to 2000 m.

Distinguishes you from the traffic effectively.

Smart Motion Sensor

The motion sensor turns on automatically when braking, and lights up for 3 seconds at maximum 180 LM.
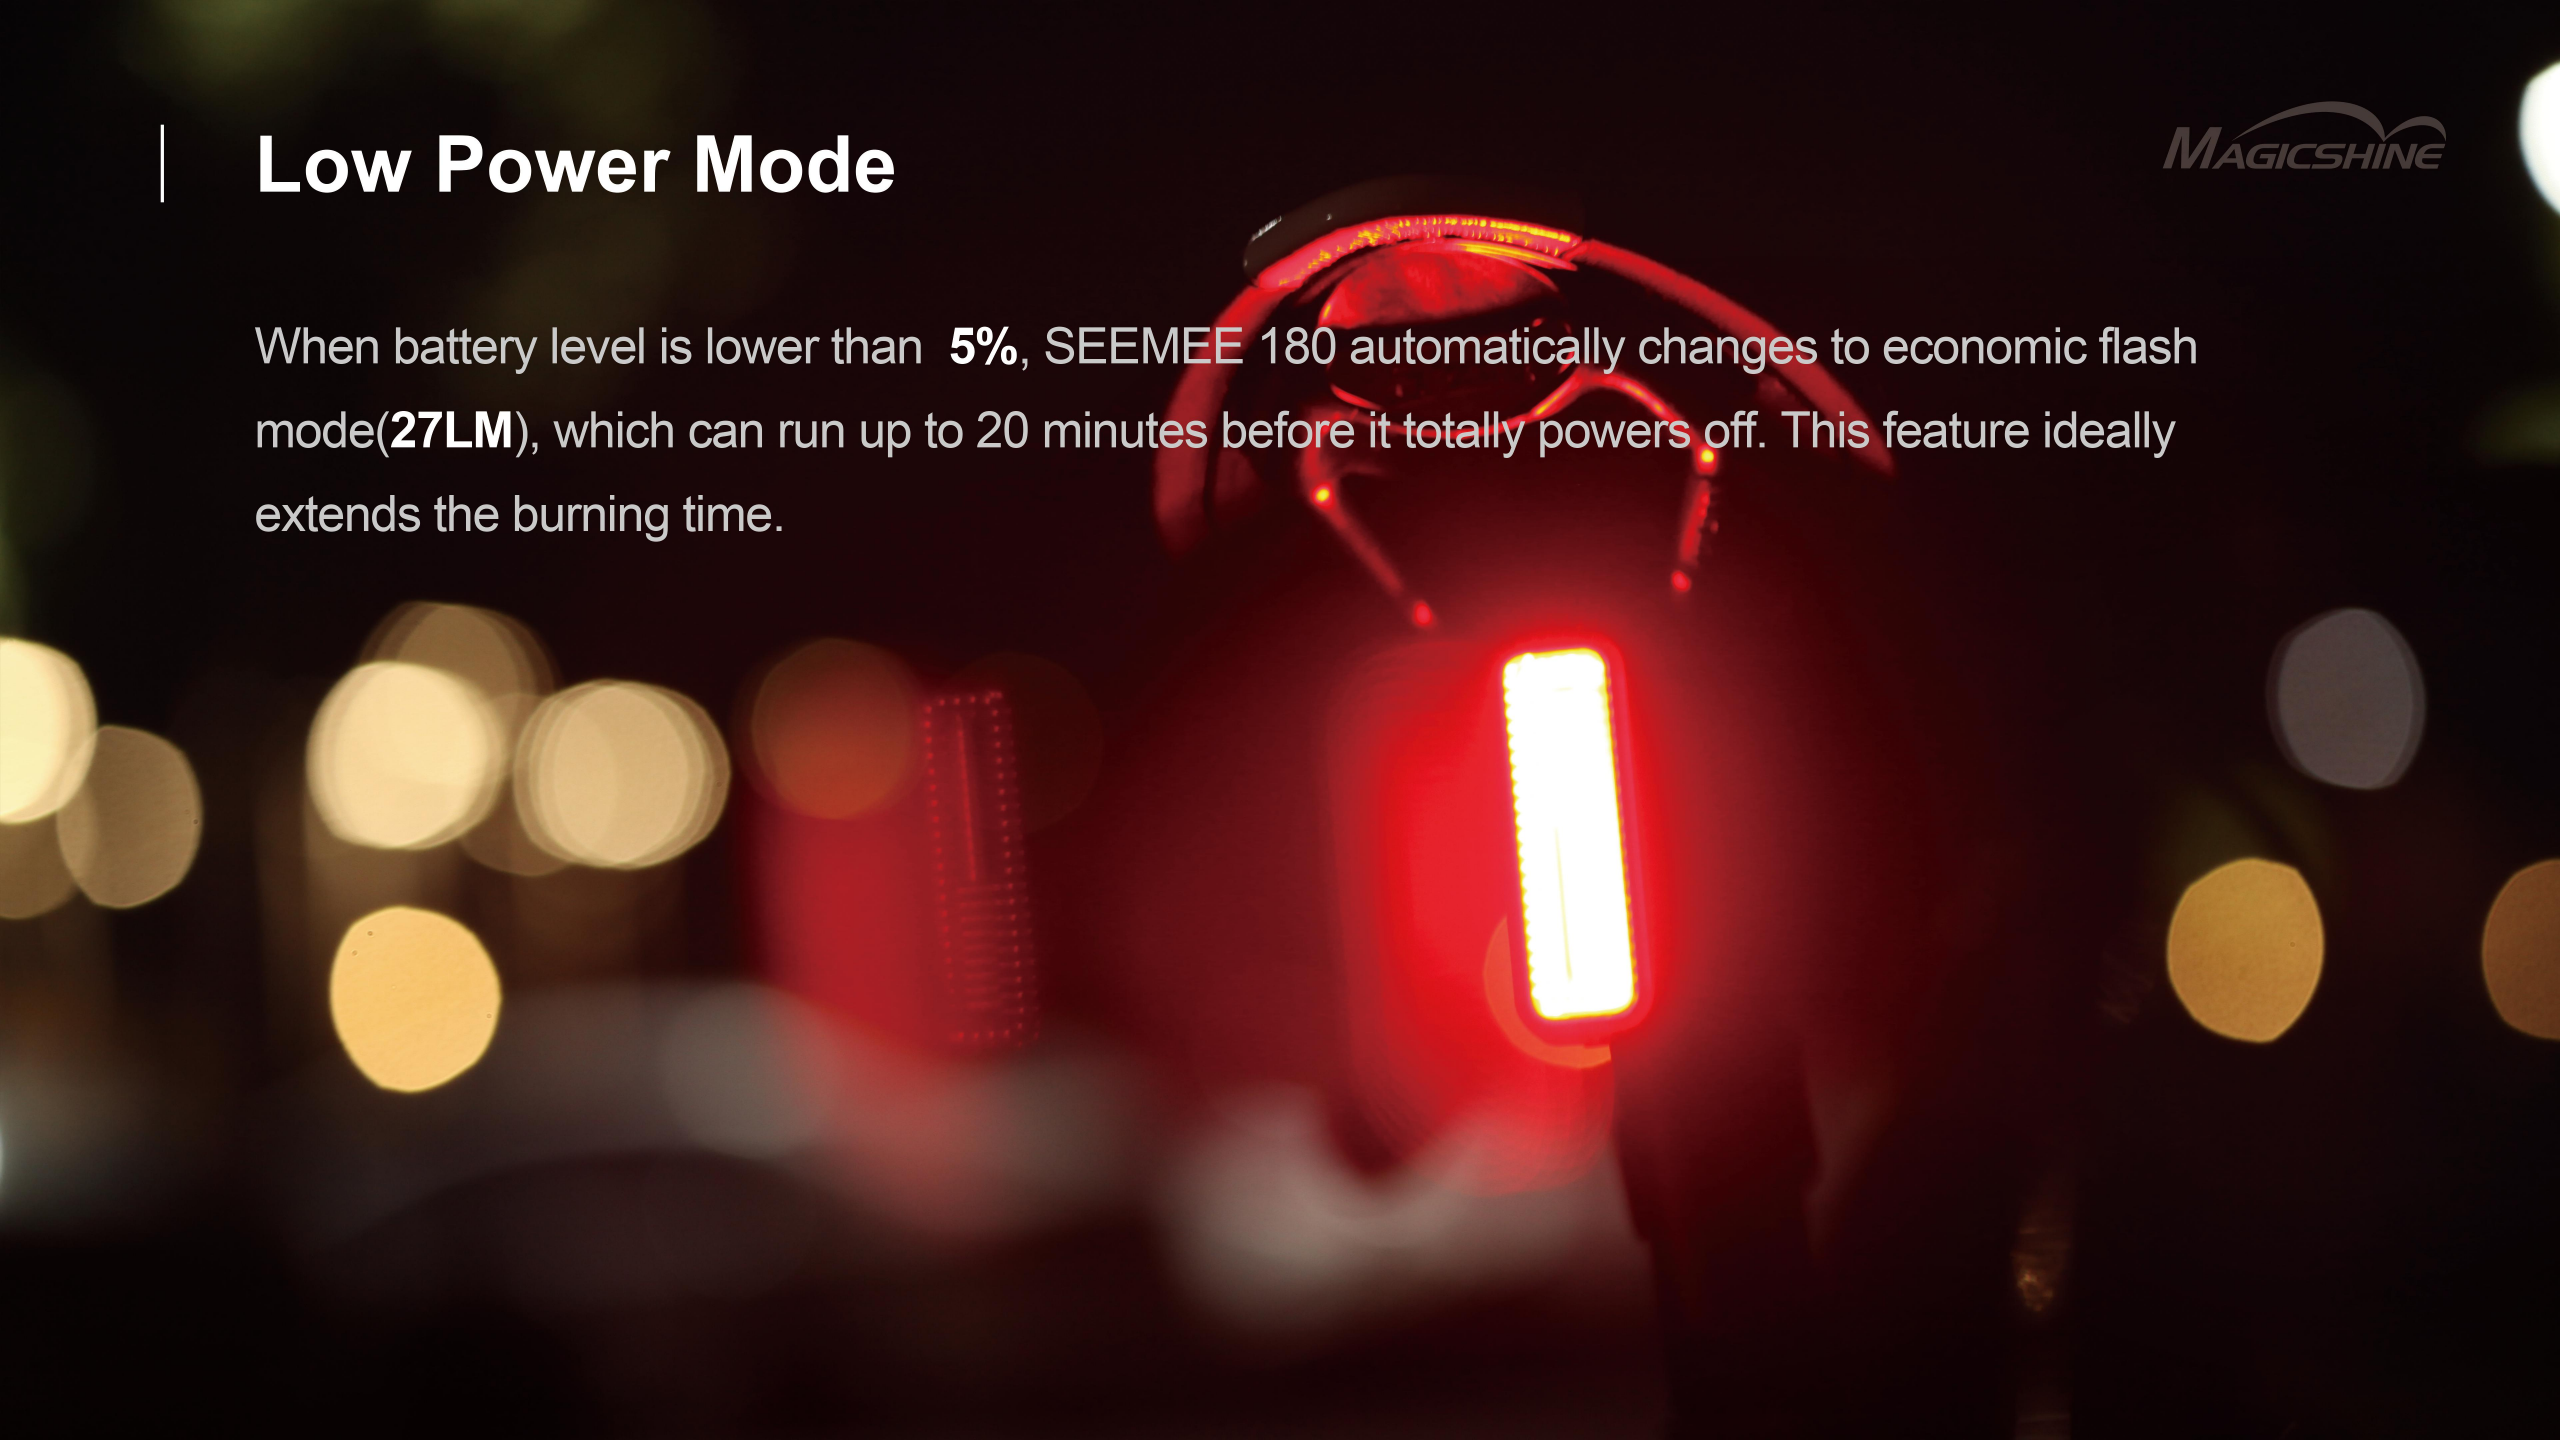

MAGICSHINE

Sensitive Ambient Light Sensor

Under smart mode, the built-in light sensor automatically adjusts the brightness according to ambient lighting conditions. Thus to increase warning effect efficiently during day and night.

Low Power Mode

When battery level is lower than **5%**, SEEMEE 180 automatically changes to economic flash mode(**27LM**), which can run up to 20 minutes before it totally powers off. This feature ideally extends the burning time.

All Around Visibility

The translucent hard case gives
SEEMEE 180 high side visibility, which
lets riders to be seen from all directions.

Convenient USB Charging

Battery indicator:
