Description

Specifications

High resistance product designed for professional use in hotel facilities, gardens and communities.
Smooth finish without skirt.
Stainless steel structure with a fixed mast 225 cm high and flat finish¹.
Designed to be used with foundation².

Fabric

Breathable fabric constructed with double weft and double warp, 1.25 mm thick and 870 g/m² density.
Made of a continuous polyester thread core (30%) coated with PVC (70%).
Resistant to UV rays, with a light resistance index of 8.
Antimicrobial protection that protects against bad odors and moisture.
Fire resistance due to flammability retardant according to EN-1021-2:2015 regulations.

Mast

AISI 304 stainless steel tube with a bright polished finish, 30 mm in diameter and 1.5 mm thick.

Grip³ and crown⁴

Manufactured with polyamide reinforced with mineral filler that gives it greater resistance.
Fixed trigger closure.

Rods⁵

Pultrusion rods of resin and polyester fiber 9 mm thick.

Arrowhead⁶

Made with polypropylene resin reinforced with mineral filler.

Ocean

Beach umbrella

Scape valvule⁷

The scape valve allows the release of air accumulation and protects the beach umbrella from gusts of wind.

Maintenance plan

Weekly

Visual check of the general condition, removing dirt and ensuring there are no broken parts or damage that could be a danger to users.

Monthly

Check fabric tension.

Check the structural strength and stability.

Check the good condition of the rods and mechanisms, as well as their joints and points of articulation.

Annual

Check the condition of the fabric and the mast.

Replace any worn or damaged parts.

Wintering and storage

Clean with soapy water and a soft cloth.

Remove damp stains, sand and seawater.

Store horizontally in a dry place.

Observations

- Always use Balliu spare parts.
- Balliu does not manufacture parts for other brands.
- If the product is subject to heavy use, maintenance checks must be carried out more frequently.
- Do not use the product until maintenance is completed.
- Do not use aggressive chemicals to clean the product.
- Always use products with a neutral pH.
- Use a soft cloth to clean the product.
