

Aqua Skin Shorty V3

>>> The Aqua Skin Full Suit and Shorty use 1mm Glideskin neoprene to increase speed, flexibility and range of motion in the shoulders, legs and chest; reducing drag coefficient for fast swimming. Designed to take the chill out of your swim, the Thermo-Guard technology not only provides warmth, but also a watertight seal with glued and blindstitched panels.

NEOPRENE 2mm
Maximizes comfort and flexibility

THERMO-GUARD TECHNOLOGY
Maintain body heat
