

FRAME FEATURES

INTERCHANGEABLE NOSE BRIDGE

Customizable fit for swimmers to find a nose bridge that matches their face width and eye position. For a perfect comfortable fit and leak free seal.

AVAILABLE FOR: KAYENNE PRO, XCEED, NINJA, FASTLANE.

AFT: ADVANCED FIT TECHNOLOGY

A patented technology mixing soft and rigid silicone. This dual density provides softer grip to the face reducing marks on skin and offers watertight seal for maximum comfort.

AVAILABLE FOR: VISTA PRO, KAIENNE PRO, NINJA, KAIMAN EXO, SEAL 2.0

EXO-CORE™

The bi-material frame technology combines exceptional stability with maximum comfort. The semi-rigid exoskeleton allows lens protection and integrated structure, while ultra soft Softeril material offers a streamlined, lightweight design with enhanced durability.

AVAILABLE FOR: XCEED, NINJA, KAIMAN EXO.

QUICK FIT

Easy push button that makes tightening and loosening quick and simple, even while wearing. The micro-metric strap adjustment buckle streamlines the goggle and improves precision and comfort.

AVAILABLE FOR: VISTA PRO, KAYENNE PRO, KAYENNE, VISTA, VISTA JUNIOR

E-Z ADJUST

Low profile strap allows for precise adjustment. Simply pull the straps back to your desired level of tension for a leak free fit or lift the buckle tabs and pull the goggle forward to loosen.

AVAILABLE FOR: KAIMAN EXO, KAIMAN, SEAL 2.0, KAYENNE JUNIOR, MAKO, EAGLE, MOBY KID, SEAL KID

PIVOTING BUCKLE

Adjusts and rotates to the shape of the head for a perfect and comfortable fit.

AVAILABLE FOR: VISTA PRO

STABLE STRAP

New patented Strap Management System enables the two straps to stay in uniform formation offering quick hassle-free adjustments and provides greater level of stability during dives and turns.

AVAILABLE FOR: FASTLANE

RACE FIT SYSTEM

Customizable and low-profile strap adjustment system paired with a high-quality silicone strap.

AVAILABLE FOR: NINJA
