

T5S

The T5S vegetable peeler can be considered the basic piece of equipment for vegetable preparation. It is designed for kitchens where the customer enjoys their freshness, whether they are served raw or cooked. Choice of peeling with a cutter plate or an abrasive plate.

601218

FEATURES

- The special abrasive material that covers the removable rotating plate guarantees a high quality finish to the peeled vegetables, with little waste. There is also reduced noise emission from the unit and the peel is reduced to small pieces to facilitate the drainage process.
- The safety and reliability of this appliance is guaranteed by its complete stainless steel construction and by a series of devices which

safeguard the operator and the functioning of the machine.

- The machine is constructed in stainless steel and the transparent lid in a special damage resistant plastic material which allows complete visibility of the peeling cycle.
- The removable rotating plate is covered in a special abrasive vitreous material that has a practically unlimited lifespan, and can be restored after extended use.
- The electronic controls

and the motor of the vegetable peeler has IP55 protection.

- The microswitch stops the machine from operating when the lid and the door are opened.
