

MODULUS - POLYPROPYLENE GN CONTAINERS

TOP FEATURES

- Rigid polypropylene.
- Fully recyclable at end of life.
- Temperature range from -20°C to 100°C.
- Resistant if dropped or subject to shocks (unless temperatures below zero (1)).
- EN 631.1 approved.
- Easy to see capacities (graduations). Lids provide airtight seal.
- Easy to clean : by immersion, such as in automatic washers. Shape for easy drainage and drying.
- Range :
 - Containers : from module GN1/1 to module GN1/9 with depths ranging from 65 to 150 mm, depending on the dimensions.
 - Lids and draining plate : from module GN1/1 to module GN1/9 (draining plate GN1/1 only).

(1) Do not handle boxes and lids at freezing temperatures : it is recommended to wait for the temperature to rise sufficiently so that the polypropylene becomes more malleable.

SPECIFICATIONS

	GN1/1	GN2/3	GN1/2	GN1/3	GN1/4	GN1/6	GN1/9
Dimensions L x l mm	530 x 325	325 x 354	325 x 265	325 x 176	265 x 162	176 x 162	176 x 108
Depths mm :							
65	X (7 litres)		X (4 litres)				
100	X (12 litres)	X (8 litres)	X (6 litres)	X (3,5 litres)	X (2,5 litres)	X (1,5 litres)	X (0,8 litres)
150	X (17 litres)	X (12 litres)	X (7,5 litres)	X (5 litres)	X (3,5 litres)	X (2 litres)	

Food with a strong colour (e.g. tomatoes) may leave a permanent stain. This has no detrimental effect on the hygiene.
