

## RANGE COMPOSITION

Some Zanussi dishwasher models can perform to their full potential, if combined with the Zanussi Handling System range. The modular system allows to design ergonomic and reliable solutions to handle, transport and sort kitchenware, obtaining the most effective flow in the dishwashing room. The wide range contains cord conveyors for trays, manual, motorized and dishwasher driven sorting tables and a variety of roller, slide and cord conveyors for baskets. These models are used for scraping and sorting dirty dishes and should be connected to a pre-wash infill top or a basin conveyor before the dishwasher.

## SORTING TABLES R>L

### HANDLING SYSTEM for RACK TYPE DW **ZANUSSI** PROFESSIONAL

## FUNCTIONAL AND CONSTRUCTION FEATURES

- ◆ ± 50mm height adjustable feet.
- ◆ The scraping table is provided with an overshelf for dishwashing racks which can be inclined at either the dishwashing or receiving side.
- ◆ The outflow of the water is through a drain.
- ◆ The tabletop has one or two waste holes with a rubber scraping ring.
- ◆ Optional extras include a plain tray slider, cutlery chute or an additional scraping hole.
- ◆ All surfaces are smooth with a polished finish.
- ◆ The receiving tabletop is easily cleaned with raised side edges all-round to reduce the possibility of crockery being pushed off the table.
- ◆ Constructed in AISI 304 stainless steel with square 40x40mm tubular construction and legs.
- ◆ 98% recyclable by weight.
- ◆ CFC free packaging.
- ◆ Developed and produced in ISO 9001 certified factory.
